Overview

Crewed motor sailer Hermina is a classic beauty! A motor sailer designed and built in Greece in 1993. All carpentry is handcrafted by highly experienced craftsmen. Teak is the main element of woodwork throughout, providing a luxurious and comfortable environment. She is new, exciting, elegant and safe. Her exceptional service and complete privacy makes the cruise an unforgettable experience and ensures a long lasting memory.

She is a classic beauty! Teak is the main element of the woodwork throughout, providing a luxurious and comfortable environment. She is exciting, elegant and safe. She has a magnificent and spacious aft deck with dining for 10 guests plus a large sun-bathing area forward of the bridge. Her exceptional service which includes first class international cuisine and complete privacy makes your cruise around the Greek islands an unforgettable memory and a very lasting experience. The best recommendation for her category at the market.
